

Celebrate the anniversary by walking a section of this iconic trail!

The Yorkshire Wolds Way, one of Britain's oldest and best-known walking routes, is 40 years old. To celebrate this landmark birthday National Trails and East Riding of Yorkshire Council are inviting you to join in a mass walking adventure to celebrate the big day.

Splitting the trail into seven equal sections, we are inviting you to walk one leg of this iconic trail in a combined effort to walk the entire 79 miles in one day between the Humber Bridge and Filey Brigg. Led by experienced walk leaders, each section will cover roughly 11 miles of the national trail.

The National Trail winds through some of the most tranquil and gentle countryside in England. From the banks of the mighty Humber estuary, along wooded slopes and through serene dry valleys, the walk climbs gently onto the rolling hills of the chalky Yorkshire Wolds before descending from the northern escarpment along to the dramatic headland of Filey Brigg.

Everyone walking one of the seven stages will be contributing to a mass effort to complete the entire 79 mile iconic Trail in one day. What better way to say Happy Birthday to one of England's oldest and most beautiful walking routes.
